

# Kentucky

Simmental Association  
FALL SALE

Saturday, September **10<sup>th</sup>**  
**1:00 PM**

Bluegrass Marketplace, Lexington, KY

# Welcome

Simmental breeders, junior members and cattle producers,

We would like to welcome everyone to the 4th annual Kentucky Simmental Association Fall sale. The KSA officers and board of directors are committed to providing a place in Kentucky to allow its membership to showcase their genetics. Last year the sale had 23 consignors and sold to Kentucky and nine other states. We, as sale manager and KSA member are proud to welcome you to this sale and invite you and your family members to attend this Kentucky Simmental sponsored event.

The Kentucky Junior members have been busy this summer with the KSA State show, Eastern Regionals, AJSA Jr Nationals, Sweepstakes and some County Fairs. The KSA has always had a strong junior association, and the last two years have been great with many new, young members and strong participation in the all State, Regional and National events. Come and visit with our future leaders and breeders plus visit with them about their summer experiences.

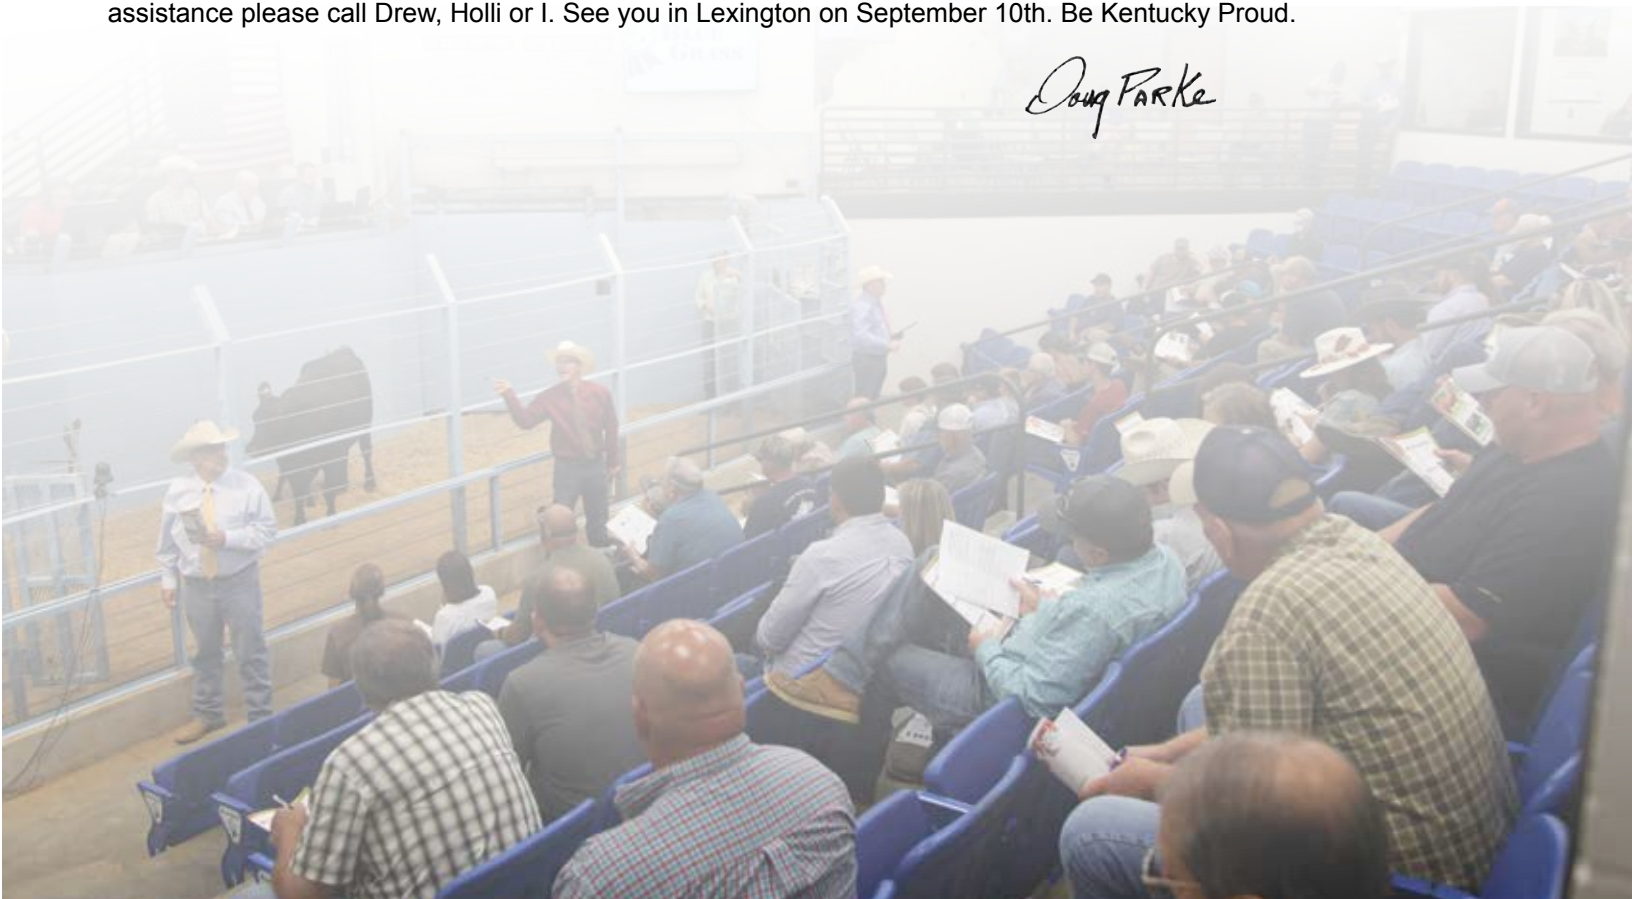

Kentucky has always been a strong Simmental state and produces genetics that have always been producing some of the breeds best. We want to acknowledge that over the years of all the dedicated breeders that have done an outstanding job. I encourage you as a potential buyer to study the pedigrees, ask questions, and learn all you can about the advantages of the Simmental breed. Remember everyone is invited on Friday night and Saturday. The barn lighting is extremely well so if you need to come later the facility is open.

The 24 consignors have done an excellent job in consigning and bringing their best to the KSA Fall sale. There is something for everyone. The offering includes open show prospects, fall and spring calving bred heifers and bred cows, cow calf pairs with young calves, bred heifers and many will be close to calving, so you don't have to wait long. Don't forget the genetic lots.

The Bluegrass Marketplace is one of the nicest livestock facilities in the country. We invite you to come and take in the facilities and the activities. Please watch for updates sale week, videos, and any updates. The sale will be on DV Auctions as well. If you have any questions on any of the great offering please don't hesitate to contact any of us at DP Sales.

We are proud of our Kentucky breeders and this strong sale offering. We look forward to the continuing the improvement of our breed in the Bluegrass state and hope you will be a part of the future. If we can be of any assistance please call Drew, Holli or I. See you in Lexington on September 10th. Be Kentucky Proud.

Jubilee is a young heifer from a cow family that traces back to the Buster Broyles herd. This cow family excels in udder quality, longevity and performance. The dam of Jubilee is an excellent young cow in my herd, her granddam remains productive at 9 years of age, her great granddam also remains productive at 14 years of age and her great, great granddam remained in my herd until I sold her at 16 years of age. Jubilee is a powerfully made County O heifer with excellent structure and style. She is halter broke and has been shown at a couple of county fairs this summer. Her best days are ahead, as she should be a very nice producer of excellent calves for years to come.

Making cattle like Lola J02 is just what we had planned for when we purchased her mother as a bred heifer from Red River last fall. Sound, big bodied, heavy muscle, functional type of cattle with eye appeal. Sired by RRF Trading Up, an impressive P2B x A021 son, and out of an OBCC Lola 137Z daughter, J02's pedigree is stacked with cow power. Whether you're looking for a show heifer or just one to add to the cow herd, Lola J02 is one you need to check out.

HPF Daisy Mae A008

After I sent all our paperwork in, I decided to enter this open. We planned on keeping her at the farm. On Cue is probably one of the youngest on sale. We purchased her dam from Long Ridge for the genetics of the donor Daisy Mae A008. The females out of this donor have been tremendous and the original Daisy Mae has a long list of accomplishments and a long card for HTP and many others. The reason for that is that the family is deep rooted. Don't let her age fool you. A008 has sold many daughters in the Clearwater Customer sale; actually A008 sold to Double J in that same sale. We like being part of the KSA Fall sale.

HH Our Legacy

Mr CCF 20-20

*Dam* Woodlawn Delila

Woodlawn Daphanie

Charlotte was purchased out of the Sloup Simmentals program as a calf at side of her dam. We have been very pleased with her and her dam since we got them. She is by Nick's red baldie bull, The Governor, making her hetero black. We have had a couple calves out of The Governor bull and really like them. Charlotte is sane, sound, clean fronted and attractive. Here is a money maker for you - she's bred to OMF Epic with sexed heifer semen and due to calve in February!

- **BRED AI** to OMF Epic E27, ASA#3317371 on 5/4/22. No bull exposure. Vet confirmed bred.

*Consignor* Barron Simmentals

We have been stacking cow families from day one and it is still our goal as we get older. Theresa and I have always loved the cows even though she does most of the work. When we come to town they have to be presented well and that is the case at Bluegrass Marketplace. 320J is well bred with Steel Force and Red Jewel in the pedigree. Her dam is an excellent 20/20 x Red Jewel. I hate that this female is going to be later calving bred 8/5/22 to a Main Event son. You can count on genetics no matter the year or calving date.

*Consignor* Welsh Simmentals

We are excited to offer SBC Eclipse 797H in this year's sale. This female is out of the now deceased MR CCF 20-20, who's calves have become highly sought after, high-lighting sales across the country. She's backed by the extremely potent PVF Insight, Dameron First Class pedigree from our lead Angus donor SBC Eclipse 537D. She has had an impact in our program in her young career. In her first flush she produced SBC Eclipse 794H, who won her division at the Simmental Breeders Sweepstakes and reserve division at Fort Worth, and SBC Northgate, who was crowned Reserve National Champion at last year's Cattleman's congress. She is safe in calf to HPF MR Domination Y074, who is our no miss herd sire. He is out of the highly touted RP/MP Right to Love 015U making him a maternal brother to bulls like HPF Quantum Leap and THSF Lover Boy B33. The potential for this heifer and her progeny are endless and we are excited to see where she lands, because she will make an impact.

- **PE** to HPF Domination, ASA#2584969 from 12/1/21 to 2/1/22. Due 10/8/22

This guy has been great to us and will look forward to more calves hitting the ground. We wanted to add some more red to our herd and that led us to the Hilltop program in South Dakota. This bull gets out and does his job in a hurry. We have some good looking calves on the ground and will be glad to visit about him and his progeny. Turn this guy out and he will handle some cows. He is worry free. Don't overlook this mature sire that offers calving ease and balance plus has a great disposition.

From the moment this boy hit the ground we have had a ton of interest in this bull. With his genetics I really hate to let him go. He is sound, solid, and still growing. He is sure to throw some gorgeous babies. Backed by Duracell, this guy has a bright future ahead of him. Top 25% for Weaning Weight.

Bank Note has been a standout since birth. Coming from his mother that we purchased from Wayward Hill Farm a few years back, she is easily one of our most easy fleshing, good footed, and most powerful milking cow we own. With a laid back easy going personality, she has passed those traits onto her offspring. We expect this young, upcoming herd sire to pass along the same traits to his offspring in the future and make you money in the years to come.

Selling 3 embryos guaranteeing 1 pregnancy if work is performed by a certified embryologist.

I think it would be safe to say after all the progeny out of Roxie these embryos by Sam is a no miss. We have mention a few Scarlet, Dew North, the two heifers in the sale and many others which all seem to be happy customers. Welsh Scarlet was Champion and high seller at the 2013 Ky Beef Expo which produced the two North American champions Dew North and GSC Saughatchee. This past year we are seeing many Sam progeny and it looks like he is in for long haul. Don't forget the JBSF Proud Mary on the top. Many know good bulls come from great cows. \

"Jewel" has been a favorite since she hit the ground. She was calf champion at the prestigious Iowa state fair. She was the high seller at the New direction sale and since then has produced a 15k heifer and a \$8400 heifer. Her sons will follow suit when they sell in February. Either mating, either sex will give you the best calf in your calf crop. Only selling choice, because we want more of those calves that people who come to visit look at and say "what's that one?"

We don't like to let go many embryos out of 076W. She still looks great. The pedigree we probably don't have to remind most this is a proven and royal pedigree being Built Right x Lutton x Love Me Dont You. This line of genetics still produces one and very instrumental in the Simmental breed. I remember 076W past because that is when I first saw at the Rocking P barn. In the 2011 season she was Ky Beef Expo Grand Champion, AJSA National Classic Grand Champion Bred and Owned, Senior Champion female at the Simmental Breeders Sweepstakes. Ask Chan or Keith or any of the girls about the sibs, half sibs and any in the long list of family and just want they have done. We retain many progeny in the herd, sold some in our online sale we have in September and a few embryos when you can catch me on a good day.

If you've been involved with the Simmental breed, you're likely familiar with the "Cottontail" family. SS Cottontail 086Z is one of the most powerful and potent members of that legendary family. She's big barreled and sappy middled, while being built on a massive skeleton and remains sound when in motion. Throughout the past few years, she has placed progeny in some of the nation's most dominant cow herds. This mating to "Innovator" should produce high performing cattle that are well constructed, and read attractively on paper.

## MULTIMIN® 90

An injectable aqueous supplemental source of zinc, manganese, selenium, and copper

CAUTION: FEDERAL LAW RESTRICTS THIS DRUG TO USE BY OR ON THE ORDER OF A LICENSED VETERINARIAN.

**ACTIVE SUBSTANCES PER ML:**

Zinc.....60 mg/mL  
 Manganese.....30 mg/mL  
 Selenium.....5 mg/mL  
 Copper.....15 mg/mL

**OTHER SUBSTANCES:**

Chlorocresol 0.7% w/v (as preservative)

**DOSAGE RECOMMENDATIONS:**

CALVES: Up to 1 year.....1 mL/per 100 lbs. bodyweight  
 CATTLE: From 1-2 years.....1 mL/per 150 lbs. bodyweight  
 CATTLE: Over 2 years.....1 mL/per 200 lbs. bodyweight

**PRECAUTION:**

Selenium and copper are toxic if administered in excess.

Always follow recommended label dose. Do not overdose.

It is recommended that accurate body weight is determined prior to treatment.

Do not use concurrently with other injectable selenium and copper products.

Do not use concurrently with selenium or copper boluses.

Do not use in emaciated cattle with a BCS of 1 in dairy or 1-3 in beef.

Consult your veterinarian.

**CAUTION:**

Slight local reaction may occur for about 30 seconds after injection. A slight swelling may be observed at injection site for a few days after administration. Use standard aseptic procedures during administration of injections to reduce the risk of injection site abscesses or lesions.

**WITHDRAWAL PERIOD:**

Meat 14 days. Milk zero withdrawal.

**DIRECTIONS:**

This product is only for use in cattle.

MULTIMIN® 90 is to be given subcutaneously (under the skin) ONLY.

It is recommended to administer the product in accordance with Beef Quality Assurance (BQA) guidelines. Minimum distance between injection sites for the MULTIMIN® 90 product and other injection sites should be at least 4 inches.

Inject under the loose skin of the middle of the side of the neck. Max volume per injection site is 7 mL.

Subcutaneous injection in middle of side of neck.

Store Between 15°C and 30°C (59°F and 86°F)

**SUPPLEMENTATION PROGRAM**

BUELS	3 times per year
BEEF COWS	4 weeks before breeding 4 weeks before calving
DAIRY COWS	4 weeks before calving 4 weeks before insemination at dry-off
CALVES	at birth at 3 months and/or weaning
HEIFERS	every 3 months - especially 4 weeks before breeding

(program gives planned dates that can be varied to suit management program)
