Family

like branches on a tree

we may grow

in different directions

yet our roots remain as

One!

*T*hink of a massive tree that is somewhere on your farm or ranch. I know everyone has a favorite tree which they grew up under, got married beneath, or had a swing attached to. We wanted to dedicate this 16th sale to the roots of many. One is the people with the foresight and took on the challenge of starting a first class sale and put down the roots and to be consistent over the years and watch what was planted grow and develop. Secondly is to breed, purchase, develop and offer your best genetics to customers around the country. This is the 50th Anniversary of the Simmental breed and we want to express all the hard work, time, dedication and investment that many families large and small have made in the Simmental breed over the years. Most of all we want to thank Steve Sanders for his unmatched enthusiasm and leadership. Some of the participants in the Head of the Class have changed over the Years; however the same philosophy that was put in place 15th years ago at the first Head of the Class still is instilled in all the breeders involved today. One thing that we want to express and acknowledge over the years of the sale the roots run deep and the branches have grown and hopefully many programs have flourished because of this genetics improvement. Some of the individuals marketed in the Head of Class have passed generation after generations of strong genetics that are still impacting our breed today.

We want to share some of the history of the Head of Class sale and some of its deepest roots and some of the genetics have impacted the breeders involved and their customers along the way. In the sale in 2005 GCF Miss Caliente R2 was claimed by many to be one of the best. On sale day this tremendous female commanded \$18,750 going to Silver Towne Farms and Harkers Simmentals. Today, Caliente R2 has 158 progeny listed with ASA and one of her best daughters is the two time North American champion, STF Onyx. The roots of that family are deeply rooted and the list continues to grow. In that same sale the Triple Crown champion, SVF Breath Taker sold for \$35,000 going to Anvil Acres in Maryland. On her cow card she has 77 progeny listed to date. In viewing this year's catalog Baby's Breath is represented well with 4 or 5 progeny. One of the most famous and productive daughters of Breath Taker is SS Babys Breath which sold in the 2008 sale for \$18,500 going to Hilbrands Baby Breath has 143 progeny listed with the ASA and her progeny are still some of the most sought after in their annual production sale.

In the 2006 sale C&C Farms selected SS DS Sweet Kisses for \$13,250 and has been very instrumental in their program with 51 progeny reported. Also, that same sale Little Mountain purchased a Breath Taker daughter of \$8,200. In 2007 SS Golden Dream N901 a half sister to Dream On was selected by Sunset View and Wilson

Amazing Grace

SS Empriss 302Y

KenCo Miley Cottontail

HPF Sazerac 205B

Farms for \$13,000. SS Gracie Babe T914 was purchased by Wesner Livestock for \$9,500 and went on to be a many time champion. After her success as a donor, Gracie Babe returned to the sale in 2014 and commanded \$12,500 from long time sale supporter Nick Sloup. Rew Too Cool S365 was a great buy that year at \$6,250 going to Lazy H in Ohio. She is the grand dam of the Victoria Secret and Shell Shocked. Too Cool's grand dam BSC Lady Luck sold in the 2004 sale going to Sloup Simmentals and has 56 progeny listed with the ASA. Her families' roots extend all over this breed today.

In the 2008 sale along with Baby Breath, the other popular lot was SS Empriss T091 selling to Pine Ridge Farm and Sunset View. T091 has 64 progeny listed with ASA. In 2009 one of the best ever Sim Angus cows, Akers Ruby commanded \$21,000 going to Sloup, Double R and Snider. In the 2010 event, Rew Ms Brenda sold for \$16,750 going to Dillion, 3M and Sanders plus her dam, Amazing Grace sold for \$13,500 going to Seward, Nebraska. Grace has 71 progeny listed with ASA. In the 2011 sale, Hartman Cattle Co. selected a Cottontail pregnancy for \$20,000. SS Empriss 302Y was selected by Hudson Pines Farm for \$10,750 and was one of the crowd favorites and still is today.

2012 highlight was the many time champion and popular donor, Kenco Miley Cottontail. After the dust and excitement slowed down the winning bidder was Bill Sloup at \$45,000. After she sold her son, Tailgater commanded \$21,000 to Dunn Ranch. Cottontail has been highly instrumental for several operations and her progeny still are offered in the sale and many others. Her progeny to date is 103 and growing and her progeny still show up in the show and sale results. Also in 2012, Tingle Farms selected SS SVF Honey Bunz for \$12,000. In the 2013 sale two Cottontail were among the highlights one going to Southern Jewell at \$13,500 and Cotton Puff at \$11,250 going to Bill Sloup. Longtime faithful supporter, Ed Rule owner of Shoal Creek selected SS PRS Daisy Lynn for \$10,000. In the 2014 sale Cottontail progeny still were at the top of the class selling for \$30,000 going to Hilltop Simmentals and another daughter to Circle M for \$25,000, Cottontail 440A selling for \$21,500 going to Dean Volk, plus Cottontail 17A selling for \$15,000 to Hudson Pines. Fenton selected HPF Sazerac 205B for \$17,500. Another highlight was one selected by Andrew Speas, Foxy Lady for \$14,500 and has several lots in the sale this year.

The 2015 sale was loaded up with highlights and sale was topped by BF I Am Glamour for \$29,000 purchased by long time breeder and customer Ed Rule. WLE Heaven Sent, \$21,500 to Keith Lambright, WLE Crocus \$20,500 to Circle M, HCC Conley Cottontail for \$18,000 to Hillstown, Dandy Kane \$18,000 to Andrew Speas, SS Rachel \$16,500 to Ronnie Smith. That same year HTP Bram 457 C504 was purchased as an open heifer by the Gilbert family for modest price of \$6,250. The show prospect won as an open and as a cow calf pair. This year at the Simmental Breeders Sweepstakes C504 was Supreme Champion overall. 2016 was represented by Right To Love, Sage, Missy and She Glamorous 430W for \$16,000, \$9,000, \$12,500 and \$9,000 for half interest. In 2017 the top class mate was represented by a past sale favorite family, Red Jewell, a daughter sold for \$8,500, Bramlet Beautiful at \$8,000 to Pickerel Farms and Bramlet Crocus for \$7,500 to Shoal Creek.

The roots were started many years ago and the roots continue to grow just like the list of good customers and the success stories. All of the above genetics have already made history and their family tree still continues to grow. Each year many cattle are affordable, dependable and add genetic merit. The Head of the Class is proud of their past however most importantly looks to the future. The group is aware of challenges in the seed stock business and Agriculture; however will continue to do the best of their ability is supplying and standing behind their product Simmental genetics. We welcome you again to join in the hospitality in Louisburg, Kansas.

• X38U A own daughter of SS Baby's Breath P035 who commanded \$18,500 in this very ring 10 years ago. Catch Your Breath is a chip off the old block no doubt. We have only scratched the surface of what this female can do. You will see what we are talking about when you see the daughters that will be with her sale day. Two of those are sired by Uprising and Boy what a duo. E744 and E748 They both have what it takes to succeed on any level. E748 made many friends at the Sweepstakes in that tough fall calf division. D641 the bred female of the group is more moderate in her make up but one that appears to have all the pieces it takes for success as she matures into the front pasture kind. Study her sire packed with quite the punch of great ones. We can't forget her coupon on the side F825 that may have out done them all. She is sired by a full sib to the Gilbert female "Bramlets Image D622" that raked in all kinds of purple last year. This little yack haired April baby has the potential to put you on top like the Baby's Breath Family does. Just ask Darrin who helped make him famous many moons ago.

ROOTS

• E729 also had a full sib through this very ring a few years back which ended up staying in Louisburg, Kansas running those wide open pastures at Sanders Ranch. A full brother HPF/Bram Grand Central who was a top seller in the HPF Bull Sale now covering the pastures as top herd sire at Ryan Cattle Company of Illinois. You have to appreciate this female for her perfect foot and leg structure with the added power and overall balance that the beautiful cow family is stamped with. Sells bred to the TWO-TIME Denver Champion "Pay the Price"

• Y001, D640, D637, and D656 – This maybe one of the hardest females to let go of. The Lucy Cow Family has brought me personally much success through the years in this business and helped me get to this point today. Y001 brought us much joy as she was my sisters' last Jr. Heifer being slapped Champion % female at the 2012 Simmental Sweepstakes. After that she hit the Donor Pen and did it with style. We never really shared many daughters through the years but when we did they commanded top dollar with an average of \$8,750 per head. We have several daughters that will impact our program for years to come. These 3 females will impact yours- D637, D640, D656. When you make the drive to Sanders Ranch in September you will see what we are talking about when you lay your eyes on the Y001 female and the trio of 'baldy' daughters that are ready to hit the production line. They will pass on the concrete look, structural integrity, and overall balance that the Lucy Cow Family is stamped with. All females are bred up early to CNS HFS Payload for a quick return on your investment.

• In our spring online Sweet Divas sale we sold several young fall borns and one of the special ones was a full sister to D644. HTP Bram Sazerac E756 has been a show stopper so far being 7th overall at the North Central regionals, class winner and 3rd in Division at the Jr Nationals and Reserve Grand in the open show at the Simmental Breeders Sweepstakes. We wish the best of Walker Housley and the rest of his team in the future. Sazerac E756 is ahead of Walker's heifer because of age and getting ready to go into production calving to Executive Order. D644 is wide based, bold sprung, deep and broody. The dam is quite impressive and special being a Power Drive out of the one and only Sazaerac. Remember to get a front row seat at the Head of the Class.

• We purchased the flush rights to "CLRWTR Serena C74L" at the 2016 NAILE. "Breez" as she was nicknamed was beautifully displayed, packing credentials from the AJSA National Classic and the Indiana State Fair. We flushed her to "W/C Loaded Up" and have brought three daughters to the Head of the Class Sale

for your evaluation. Pick and choose of these gorgeous heifers. All three could be show heifers. Super eye appeal and sound structured. F66 Miss Nebraska out grew her siblings even being the youngest. F5 is a lot like Miss Nebraska maybe even a little more zipper fronted neck. F446 is a bit more compact, good shape and top, also the most docile calf we have ever had on halter. We like all and will let you decide.

• We are truly honored to be a part of this years Head of the Class and know very well the reputation for this event that Sanders Ranch and their team have spent years building. They have dedicated themselves to offering elite level cattle that go on to not only win in the showing but make top tier donors that have long term impact on the breed. We offer E420 for your appraisal because we believe she is a female of that caliber. Flawless in her outline, unique in her build, and pliable in motion, purebreds like E420 do not come along every day. Backed by breed dominant females BlackStar 307Y and Alley 247Y, E420 is as strong genetically as she is on foot. E420 already has an impressive resume started, being named 4th Overall Bred and Owned at Junior Nationals, Division Champion

at Sweepstakes, and most recently Reserve Grand Female at The Illinois State Fair. Bid with confidence, even brighter days lay ahead for this female. Schick Haefner Cattle reserves the right to one flush with a minimum of 6 transferable embryos to be done at the buyers convenience within two years of sale date and at the sellers expense.

• Selling 5 embryos guaranteeing 2 pregnancies if work is performed by a certified embryologist.

• Well, Bill Sloup and I are still excited about the future of this No Remorse donor. This female is exciting to watch as she matures into a young cow and see the offspring and decide what to flush her to next. We sold the first embryos ever in last year's Head of the Class going to KenCo Cattle Co and Micheal Benda. The mating of Pays To Believe will make history no doubt. The W/C Fully Loaded calves are on the ground and quite impressive. Of course he is the full brother to the high selling Bankroll. The Head of the Class has been going on for many years so don't overlook the genetics that come out of this sale each year. These genetics will make the year book of memories.

W/C MISS WERNING 5016C - REFERENCE DAM

• When we put 481B in the replacement pen as an open heifer we had very high expectations for her. As a two-year-old, she produced a \$10,000, Pays to Believe heifer calf that sold through this very sale ring; shattering those high expectations right out of the gate. 481 comes to you in the prime of her production life; backed by the maternal generating giants U56 and 770P. Her phenotype speaks for itself; she looks a whole lot like U56 but in a more versatile, solid black, 3/4 blood package. This lends her perfectly towards making "next-level" purebreds or hellacious percentage building blocks, and it is with the utmost confidence that we say she needs taken straight to the donor pen after calving; with that, we went ahead and qualified her as a Donor Dam for you at ASA. Bred back to P2B, confirmed safe with a heifer calf pregnancy, this package is a sure-fire return on investment and an exciting addition to any program. Seller retains the right to one future flush at the seller's expense and buyer's convenience.

• If you believe in the power of cow families and are looking to stouten up your replacement pen and wallet, F212 can take you there. It has been proven, time and time again, that the direct U56 daughters are making tremendous brood cows with herd building traits. This female looks to be cut from the exact same cloth. She too, is smooth made, easy fleshing, sound structured, and perfect uddered with endless mating potential and generating possibilities. U56 descendants are later maturing cattle; cattle that get cleaner fronted, stouter, and more valuable with time. I wish I had a weanling photo of her maternal-sister, 481B, selling above; the similarities would be scary and I might be up a couple thousand on the lucky buyers. I shouldn't be selling this kind, so pick up. Halter broke to make a competitive youth project before a brood cow if you so choose.

• Offering 3 direct transfer embryos Guaranteeing 1 Pregnancy if work is performed by a certified embryologist.
 • This Crocus cow family needs no introduction. The daughters of the CNS Dream On L186 x ETR Ms Black Crocus L105 are consistent producers of high quality cattle. WLE sold a full sister to 105T, WLE Crocus S105 for \$20,000 at the Simmental Sweepstakes sale and several progeny of this cow family have demanded serious attention. Embryos sired by Dew North should only add to the solid cow family and be a rock solid investment for any operation.

Sold in the 2015 Head of the Class sale for \$20,500 to Circle M Simmentals.

• I'm going to steal a line from the judge who used 516E last month when Grady was showing her to Supreme All Breed Champion, "this one is cooler than the underside of your pillow"! He obviously hasn't been the only one that has fallen for this fall beauty. We have said over the last 16 years of our sale, we don't sell many fall opens unless they are darn good, well ladies and gentleman, this one is a damn good one! Phenotypically she's as big bellied, big legged and big hipped as you would ever want, and on the move she can right the book on how one is supposed to look when set in motion! There is no doubt about how she excels physically, but its how she excels genetically that really gets us fired up! Her Sire and Dam were both two of the best animals that ever walked at the historic Hudson Pines Farm in NY, and with both of them now deceased you can't create another 516E. We are certain this female will make her mark on the tanbark and the seedstock industry! Seller retains the right to 1 flush resulting in at least 6 transferable eggs at our cost and your convenience.

- Selling 5 lots of 10 up to 50 Units.
- ASA Bolt EPDS Aug 14, 2018

• When the opportunity came to purchase the Glacier Cattle herd in Wisconsin and move the cattle to Missouri, we jumped at the chance. Lydeon Land and Cattle is very excited and grateful to the Head of the Class to join in the offering. Due to the logistical challenges of moving the herd and getting pictures and cattle ready for the Head of the Class Sale, we thought it would be excellent to offer some of the Fort Worth National Champion Bull, GSC GCCO Dew North 102C mating from the donor cows that are moving to Myrtle, Missouri. Homozygous polled and black.

• Dew North 102C, is the functional, sound structured sire that made the true cow people notice him at NAILE, National Western and Fort Worth. The calves on the ground of this balanced EPD sire, are clean fronted, square built cattle with body and volume. Dew North is a bull that gained several fans over the course of this past show season. His functional build and genetic profile makes him a sire of choice for several cattle people. After winning Fort Worth, John Griswold purchased half interest in Dew North and added him to his impressive bull battery. The calves that hit the ground this spring came unassisted to first calf heifers and have been square built high quality calves that certainly do not disappoint at the weaning weight scales. Looking for cattle that come easy and grow with a high quality, function look? Dew North will head you in the right direction.

HTP BRAM MS 457 C504

Sold in the 2015 Head of the Class sale to the Gilbert Family of IL. At the recent Simmental Breeders Sweepstakes, C504 was named Champion Cow/calf pair and went on to be slapped the Knic Overpeck Supreme Champion Overall.

I would like to THANK YOU
for your interest
and participation in the
Head of the Class over the
last 16 years.
Together we can keep the
Simmental
breed STRONG!

I always say....
"Formal education will
make you money
BUT,
Self education will make
you wealthy!"

Head of the Class

September 22nd, 2018 | 1:00 pm

Sanders Ranch Sale Facility

4255 W 335th St | Louisburg, KS 66053

Special Guests:

American Simmental Assoc. Trustees
Randy Moody, & John Irvine
Micheal Dikeman, President of Kansas Simmental Assoc.
JR Richburg, President of Missouri Simmental Assoc.

Announcements:

A supplement sheet will be available sale day with updated information, catalog corrections, or any additional information. This information and any information relayed over the auction block during the sale will take precedence over printed material for the sale. Anyone attending the sale does so at their own risk. DP Sales Management, sale hosts, and/or consignors will not be held responsible for any personal injury incurred at the event. DP Sales Management is only an agent for the seller and has no responsibilities other than those conducting the sale.

Sale Registration & Payment:

All buyer numbers will only be issued with a valid ID and payment is due day of sale. DP Sales Management, LLC would appreciate timely settlement of receivables within 15 days of date of sale. Cattle will not be transferred until paid for in full.

Notes:

The EPDs reported in this catalog are the Fall 2018 numbers, as reported by the American Simmental Association.

Terms & Conditions:

All cattle sell under the terms and conditions of the American Simmental Association. Cattle become the responsibility of the buyer upon purchase. Terms of sale are cash or check, payable during or immediately after the sale and before cattle will be released. Payments are to be made within 15 days of the sale. Failure to make settlement in a timely manner will result in prosecution. Cattle will not be transferred until paid in full.
